10	Silence	16:00
11	Silence	32:00

Digitally created silent tracks. Can be combined to produce any length of even number of seconds up to an hour.

Pedantic notes: Combinations can go up to 1h 4min 2s. No 1s track as the standard CD format minimum track length is 2s. The CD format also required a hidden 2s gap before the first track as spin-up time.
